

**LISTING OF THE CLAIMS**

**Claims 1 - 30 (cancelled)**

**Claim 31 (Currently amended):** A method of providing data to a user of a client computer connected to multiple data stores and multiple other computers, the method comprising the steps of:

providing a user interface to enable the user to identify desired data available on one or more of the multiple data stores or on one or more of the multiple other computers;

retrieving the desired data; and

providing the desired data to the user.

**Claim 32 (original):** The method of claim 31, wherein the user interface provides categories of data.

**Claim 33 (original):** The method of claim 32, wherein the categories of data include music categories.

**Claim 34 (original):** The method of claim 32, wherein the categories of data include news categories.

**Claim 35 (original):** The method of claim 31, wherein the desired data comprises one or more music files that are played with a media player.

**Claim 36 (original):** The method of claim 35, further comprising providing a music controller.

**Claim 37 (original):** The method of claim 35, wherein the user interface enables a user to create music filters.

**Claim 38 (original):** The method of claim 37, wherein a music filter comprises data on how frequently a music file is to be played.

**Claim 39 (original):** The method of claim 35, wherein the user interface enables a user to create a custom station.

**Claim 40 (original):** The method of claim 39, wherein the user interface enables a user to share the custom station with another user.

**Claim 41 (Currently amended):** An apparatus for providing data to a user of a client computer, comprising:

a client computer connected to multiple data stores and multiple other computers;  
one or more computer programs, ~~performed~~ adapted to be executed by the client computer and multiple other computers, for providing a user interface to enable the user to identify desired data from one or more of the connected data stores or multiple other computers, ~~retrieving~~ retrieve the desired data, and ~~providing~~ provide the desired data to the user.

**Claim 42 (Currently amended):** The ~~method~~ apparatus of claim 41, wherein the user interface provides categories of data.

**Claim 43 (Currently amended):** The ~~method~~ apparatus of claim 42, wherein the categories of data include music categories.

**Claim 44 (Currently amended):** The ~~method~~ apparatus of claim 42, wherein the categories of data include news categories.

**Claim 45 (Currently amended):** The ~~method~~ apparatus of claim 41, wherein the desired data comprises one or more music files that are played with a media player.

**Claim 46 (Currently amended):** The ~~method~~ apparatus of claim 45, further comprising providing a music controller.

**Claim 47 (Currently amended):** The ~~method~~ apparatus of claim 45, wherein the user interface enables a user to create music filters.

**Claim 48 (Currently amended):** The ~~method~~ apparatus of claim 47, wherein a music filter comprises data on how frequently a music file is to be played.

**Claim 49 (Currently amended):** The ~~method~~ apparatus of claim 45, wherein the user interface enables a user to create a custom station.

**Claim 50 (Currently amended):** The ~~method~~ apparatus of claim 49, wherein the user interface enables a user to share the custom station with another user.

**Claim 51 (Currently amended):** An article of manufacture comprising a tangible computer program carrier readable by a computer and ~~embodying~~ having stored thereon one or more instructions executable by the computer to perform method steps for providing data to a user of a client computer connected to multiple data stores and multiple other computers, comprising:

providing a user interface to enable the user to identify desired data; retrieving the desired data; and

providing the desired data to the user.

**Claim 52 (original):** The article of manufacture of claim 51, wherein the user interface provides categories of data.

**Claim 53 (original):** The article of manufacture of claim 52, wherein the categories of data include music categories.

**Claim 54 (original):** The article of manufacture of claim 52, wherein the categories of data include news categories.

**Claim 55 (original):** The article of manufacture of claim 51, wherein the desired data comprises one or more music files that are played with a media player.

**Claim 56 (original):** The article of manufacture of claim 55, further comprising providing a music controller.

**Claim 57 (original):** The article of manufacture of claim 55, wherein the user interface enables a user to create music filters.

**Claim 58 (original):** The article of manufacture of claim 57, wherein a music filter comprises data on how frequently a music file is to be played.

**Claim 59 (original):** The article of manufacture of claim 55, wherein the user interface enables a user to create a custom station.

**Claim 60 (original):** The article of manufacture of claim 59, wherein the user interface enables a user to share the custom station with another user.

**Claims 61 - 90 (cancelled)**
